VERAE TIME × ZAPIER

jobs.events mailbox

site/packages/verae-jobs-events/README.md

verae-jobs-events

Mailbox process for `verae.zapier.jobs.events`. Today it counts events (passthrough). Webhook routing still lives in middleware until this process takes the exclusive consumer.

Forgejo: <https://git.georgelambert.org/marchon/verae-jobs-events>

Port `:3030`.
