VERAE TIME × ZAPIER

verae-staff-iam

[site/packages/verae-staff-iam/README.md](https://github.com/marchon/verae-staff-iam/blob/master/README.md)

verae-staff-iam

Named **internal staff** accounts with **roles and permissions**. Source of truth for who may use CS, sales, accounting, the staff plane, the operator console, and the billing admin console.

Forgejo: <https://git.georgelambert.org/marchon/verae-staff-iam>

Port `:3028`. UI: sign-in, people, roles, audit.

Seed lab users

Username	Password	Roles
admin	admin-dev-key	owner (all)
cs	cs-dev-key	cs
sales	sales-dev-key	sales
accounting	acct-dev-key	accounting
operator	fleet-dev-key	operator

Override with `IAM_OWNER_PASSWORD`, `IAM_CS_PASSWORD`, etc. Persist: `STAFF_IAM_PATH` (users, audit, **sessions**). Login is rate-limited (8 failures / 10 minutes / IP+username). JSON APIs return 401/403; HTML doors 302 to `/login`.

Wire other doors

```
STAFF_IAM_URL=http://127.0.0.1:3028
STAFF_AUTH=1 # department HTML still redirects if check fails
```

GET /check?permission=cs.credit — cookie or Authorization: Bearer . Cookie name remains staff_session . Multi-host: STAFF_COOKIE_DOMAIN .

Roles

owner , iam-admin , billing-admin , cs , sales , accounting , operator , viewer . Permissions are listed on /roles .
