verae-staff-ui

One review HTML template for **customer-service** and **access-staff** (they were twins). Tokens:

`{{TITLE}}`, `{{KICKER}}`, `{{LEDE}}`.

In the monorepo both servers load `packages/verae-staff-ui/public/review.html`. A cloned package can set `STAFF_UI_HTML` or keep a local `public/index.html` fallback.
